Subject: Are you tired of your Broker's restrictions?

Hey {first_name}

One of the big problems and questions we see a lot of the time is agents who are frustrated by all the restrictions and red tape their current broker puts on them...

...But, they don't want to leave their broker and lose that support they get from them.

That's exactly why we created BTSB.

We wanted to be able to give our clients the support of a broker without handicapping or controlling their deals in any way, shape, or form.

One client story that embodies this freedom we give you is Noreen's...

Noreen just wanted the autonomy to run her business the way she wanted...

She had her license at a brokerage but was trying to do commercial and multi-unit deals. The brokerage had restrictions on how she could advertise and even put restrictions on the software she had to use...

It was driving her crazy!

When she came to us, she told us how she just wanted to run her business the way she wanted to and to be able to go after the kinds of deals she wanted without ever having to have a broker tell her no...

And of course, we said...PERFECT...

We explained how with BTSB she fully owned and controlled her own business and was free to do any kinds of deals she wanted, as long as they were legal!

Working with BTSB gave her that complete autonomy and zero red-tape so she was able to focus on just doing deals...

Now she continues to operate and grow her business on her terms and doesn't have anything getting in the way.

...And it should be the same for you.

You don't have to settle for a brokerage putting restrictions on the kinds of deals you're able to do...

And you also don't have to lose the support of a broker.

With BTSB we are still here to support you and are just a call or text away.

We're here to give you support with contract reviews, compliance questions, and business guidance - without any desk fees, marketing fees, document storage fees on every deal, account maintenance fees, advisory fees, etc...

We're just here to help you do your business on YOUR terms and get deals done.

If you want to share that same level of autonomy as Noreen without any of the red tape or restrictions...

[Schedule a new call and let's get you started with BTSB.](#)

To your future deals,

Jen
